## WORKS.

12. There shall be one point of delivery provided by the improvement district to each parcel of land which was shown as a separate parcel in the books of the Land Registry Office on the first day of November, 1920, and to each parcel held separately on the said date but not so registered. The points of delivery shall be at such elevation or the water delivered at such pressure that all irrigable land in the parcel may be reached. Where such parcel exceeds forty acres in area there shall be one point of delivery to each forty acres and one to any remaining area thereof. The acquisition and operation of all works necessary for diverting and storing the water and for carrying it from the point of diversion to the various points of delivery, including works for controlling and measuring the water at the points of delivery, shall be the duty and liability of the improvement district, and the acquisition and operation of all works necessary for carrying the water from the point of delivery specified for each parcel as aforesaid to the place of use and for utilizing the water and for taking care of surplus water shall be the duty and liability of the owner of the land upon which the water is authorized to be used: Provided that the construction of all necessary laterals required for the delivery of water to Rutland Estate lands shall be the duty and liability of the owners of the said lands. lands served therefrom in addition to all other taxes, tolls, rentals, and other charges: Provided also that the improvement district shall not be under any obligation to construct any works made necessary by the subdivision of any land until the Trustees are satisfied that it is in the interest of the improvement district to do so: Provided further that the said improvement district, upon being granted a licence authorizing the same, shall construct the necessary works to convey water from the irrigation system to the intake of the waterworks system on Eight-mile Creek, and shall, in the event of a shortage of water for domestic use during the irrigation season, implement the waters of Eight-mile Creek by diverting into the waterworks system a sufficient quantity of water from the irrigation system of the improvement district.

#### SPECIAL PROVISIONS.

13. The Trustees may, before supplying or agreeing to supply or constructing the works necessary to supply water to any land in respect of which no bonus or equivalent thereto had been before the first day of June, 1920, paid to the Black Mountain Water Company, Limited; the Belgo Canadian Fruit Lands Company, Limited; the Kelowna Irrigation Company, Limited; or the Central Okanagan Land and Orchard Company, Limited; or, in respect of which there was not in force on that date any water agreement made with any of the said companies, demand and recover from the owner of such land the payment of a bonus at the rate of fifty dollars per acre for each irrigable acre of such land, or in lieu of such bonus they may charge, in addition to all other taxes, rentals, tolls, and charges levied upon or payable in respect of such land, a special toll of seven dollars per acre per annum for a period of ten years. This clause shall not apply to any land the fee of which was on the first day of November, 1920, held by the Land and Agricultural Company of Canada nor to any of the Rutland Estate lands.

14. The Trustees, in imposing taxes to provide for the payment of the principal and interest payable in respect of the cost of acquisition of the irrigation and waterworks systems of the said improvement district, shall impose the said taxes only upon lands which are or may be benefited by the acquisition and operation of the irrigation system, and not upon lands benefited only by the acquisition and operation of the waterworks system, and they shall impose a uniform rate of taxes per acre upon all irrigable lands whether actually supplied with water or not. In imposing taxes in respect of the waterworks system they shall fix the rate or rates of such taxes in such amounts that the total sum collected annually from such taxes will meet approximately the annual charges for all necessary renewals to the said system and provide for an adequate depreciation fund for future renewals to the said system, and in fixing the tolls chargeable for water for domestic use they shall fix such tolls in such amounts that the total sum collected annually from such tolls will meet approximately the annual charges for the maintenance and operation of the waterworks system: Provided that all sums collected from such tolls and not required for the maintenance and (or) operation of the said waterworks system shall be placed by the Trustees in the said depreciation fund to provide for future renewals of the said waterworks system.

16. The said improvement district shall acquire the systems and licences formerly held and operated by the Black Mountain Water Company, Limited, for the supply of water to the lands now included within the territorial limits, and shall be liable for and charged with the repayment into the Conservation Fund of all moneys expended from the said fund upon or in connection with the said system, and of the sum of one hundred thousand (\$100,000) dollars agreed upon between the said company and the local committee representing the subscribers to the petition hereinbefore referred to as the amount to be advanced from the said fund and paid to the said company for all its right, title, interest, and equity in the said system, and of all further sums that may be advanced from the said fund to be expended in connection with the said system, and of all sums of interest accrued or to accrue on the said moneys.

17. The Trustees of the said improvement district shall make to the owners or occupiers of or other persons interested in real property entered upon, occupied, or used by the improvement district in the construction or operation of its works, or injuriously affected by the exercise of any of its powers, due compensation for any damage (including interest upon the compensation at the rate of six (6) per centum per annum from the time the real property was entered upon, occupied, or used, and including the cost of fencing and repairing, removing, or replacing buildings, relaying and making good sewerage, water and gas pipes, and electric wiring, when required) necessarily resulting from the exercise of such powers beyond any advantage which the claimant may derive from the contemplated works, and every claim for such compensation shall be decided pursuant to the provisions of Schedule C of the "Water Act, 1914," as amended.

18. Save and except as herein contained, whenever the Trustees in the exercise of any of their powers enter upon, take, or use any real property they shall make to the owner thereof due compensation for the real property so entered upon, taken, or used, and they shall have the power to purchase any such real property by agreement or to acquire it by expropriation pursuant to the provisions of Schedule D of the said Act.

19. Sections 32, 97 to 116 (inclusive), 256A, 267A, and 268A of the "Water Act, 1914," as amended shall not apply to the said improvement district.

20. In these Letters Patent, unless the context otherwise requires, the meanings assigned by section 3 or section 172A of the "Water Act, 1914," to the words and expressions therein specified shall be applicable.
